Customers Experiencing Vulnerability - Domestic / Financial Abuse and Financial Hardship Policy

Introduction

This document sets out our commitment to victims of domestic or financial abuse and policyholders experiencing financial hardship. It is regularly reviewed and has been endorsed by our Executive Chairman. Our Board and senior management receive regular reporting on matters relating to domestic and financial abuse and have ultimate accountability for this Policy.

The purpose of this Policy is to inform all our staff, stakeholders and customers of our approach to identifying and supporting people affected by domestic and financial abuse.

We recognise that domestic and/or financial abuse is a serious issue in Australian society. We acknowledge that domestic violence means much more than physical violence. It includes emotional abuse, psychological abuse, sexual abuse, financial or economic abuse and damage to property. We consider that the safety of our customers affected by domestic and financial abuse is paramount.

In Australian law, 'family violence' is defined as "violent, threatening or other behaviour by a person that coerces or controls a member of the person's family... or causes the family member to be fearful."

At JUA we aim to provide our affected customers with safe, supportive, timely and flexible assistance.

For this Policy our "customers" are an individual insured, a third-party beneficiary, a potential customer or an individual an insurer is seeking to recover money from.

We are committed to:

- ensuring that our staff are aware of the contents of this Policy and of our commitment to victims;
- ensuring that staff undertake appropriate training;
- monitoring compliance with this Policy;
- regularly reporting on compliance to senior management and our Board; and
- reviewing and updating this Policy on a regular basis.

Training

We provide training to all relevant members of our staff. The training is designed to ensure that our staff:

- recognise domestic and financial abuse;
- understand the consequences of domestic and financial abuse;
- understand how to engage effectively and appropriately with affected customers; and
- understand how to apply this policy.

Confidentiality

We recognise the importance of protecting the private and confidential information of our customers affected by domestic or financial abuse. We are committed to ensuring confidentiality is maintained.

We will work with you to ensure confidentiality. This could include assisting you to change access to our systems, updating your contact details, offering different methods of communication and agreeing to the appointment of a trusted person to act on your behalf.

Disclosure

We understand the need for us to minimise the information that we require customers affected by domestic or financial abuse to disclose and the number of times they are required to disclose information about their situation.

When customers have been recognised as being affected by domestic or financial abuse we have processes in place to limit the extent of disclosure.

Claims

Where we are involved in handling claims we have established claims processes that recognise the need for appropriate and sensitive handling of claims for customers affected by domestic or financial abuse. These processes include consideration of Confidentiality and Disclosure.

Financial Hardship and Collection arrangements

If a customer is identified as being affected by domestic or financial abuse then we will make suitable enquiries with the customer about their financial situation to determine whether they are experiencing financial hardship.

We understand that financial hardship can affect anyone. We will treat our customers with respect, empathy and understanding and will work with them to identify the type of support they require.

We will assist our customers to complete a financial hardship application form and gather supporting documents. We will fast track any financial hardship request and provide options to retain their insurance policy if they say they cannot pay their premium.

Where we become aware that a customer's debt involves a situation of domestic or financial abuse then we will not refer the debt on to a third party debt collection agency. We will consider the risks involved in attempting to recover debts in these situations.

Sometimes customers may need extra help to get through a difficult time.
